

## Introducing the Accredo Mobile App

Now you can manage your specialty medications how you want, when you want, with the Accredo<sup>™</sup> mobile app. Once you download the app, you can:

- Refill many medications
- Track orders and shipments
- View medication history
- Create and manage dose reminders
- Make a payment
- Contact your Accredo team

### Get started in three easy steps:

1. Go to Google Play or the App Store and search “Accredo” to download the app.
2. Be sure to have your Accredo prescription number ready – if you already have an accredo.com account, you will use the same username and password.
3. Log in to the app and begin managing your specialty medications on the go!
